Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6 and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Weber '651. Weber '651 discloses a cover comprising telescopic cover sections 12,13,14 including a roller edge 23,25,26,28 having a wiper 20-22 mounted therein.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weber '651 in view of Kessler. While Weber '651 does not disclose the wiper as having been co-extruded from two different materials, Kessler discloses a cover which teaches the well known method of co-extruding different materials 9,19 wherein, to incorporate this teaching into the cover of Weber '651 so as to obtain the advantages inherent therein such as ease of manufacturing or cost saving purposes would have been obvious to one of ordinary skill in the art.

Art Unit: 3634

3. Claims 1-5 are allowed.

4. Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The applicants argue that in Weber the wiper is pinched by the bent edge of the cover so as to be clamped by the cover and does not abut any rearwardly facing surfaces. This is not convincing for in the Weber '651 reference the forwardly and rearwardly facing surfaces of the roller edges 23,25,26,28 are in contact with the wiper 20-22 and as such are abutted therewith.

The applicants state that the feature of the rolled edge snap fit with the wiper is lacking in the prior art. The claims of the instant application fail to set forth any structure of the telescoping way cover which might impart meaning to the functional term of "snap fit" beyond that of an audio perception. Accordingly, no patentable weight can be attributed thereto.

Applicants arguments have been fully considered but they are not persuasive.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory

Art Unit: 3634

action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
